

Shivam Parikh

Lewis Center, OH | 614-439-8640 | shivam5parikh@gmail.com

EDUCATION

The Ohio State University

B.S. Mechanical Engineering, Intended Minors in Business and Computer Science

Columbus, OH

Expected May 2028

- GPA: 4.00 | Academic Standing: Senior by Credit Hours

- Coursework: Calculus I-III, Physics I-II, Statics, Circuits, Materials Science, Linear Algebra, Statistics for Engineers

Olentangy Orange High School

Lewis Center, OH

High School Diploma

May 2025

- GPA: 4.54 Weighted | SAT: 1520 | Top 2% of Class

- Awards: AP Scholar with Distinction, AP Capstone Diploma, 7x Science Olympiad Medalist, Scholar Athlete

RESEARCH EXPERIENCE

Undergraduate Research Assistant (Mentor: Boian Alexandrov)

May 2025 – Aug 2025

The Ohio State University

Columbus, OH

- Supported research on optimizing Laser Powder Bed Fusion (LPBF) of high-strength steel through process parameter development, testing, and microstructural analysis.
- Performed FEA modeling and SEM characterization for an Air Force Research Laboratory-sponsored project.
- Developed and presented a technical poster while gaining experience with Thermo-Calc, MATLAB, Gleeble systems, polishing, microscopy, and material testing.

Research Intern (Mentor: Mrinal Kumar)

Jun 2024 – Jan 2025

The Ohio State University

Columbus, OH

- Created annotated masks for UAS imagery to improve machine learning dataset accuracy.
- Worked with UAS systems for wildfire combat applications and utilized CAD software for component design and visualization.

PROFESSIONAL EXPERIENCE

Mechanical Engineering Intern

May 2026 – Present

Converge Technologies

Columbus, OH

- Developing skills in 3D modeling, 3D printing, CNC routing, tool-pathing, injection molding, soldering, and microcontrollers.
- Learning to work within startup environments to achieve strong engineering results with limited resources.
- Supported engineering design projects in SolidWorks, applying CAD and CAM methodologies to improve manufacturability, streamline production processes, and ensure design feasibility.

Technology Intern

May 2024 – Aug 2024

Olentangy School District Tech Department

Lewis Center, OH

- Installed software, managed hardware inventory, and supported IT systems for 1,500+ students and staff using Microsoft Office tools.

PROJECTS

Quadcopter Design Project

Dec 2025 – March 2026

Self-Directed

Lewis Center, OH

- Designed and modeled quadcopter components using SolidWorks and Onshape with emphasis on lightweight structural design.
- Applied MATLAB and Simulink dynamic simulations along with FEA and engineering calculations for performance analysis.

2-Stage Spur Gearbox Design

April 2026 – April 2026

Self-Directed

Lewis Center, OH

- Designed a 2-stage gearbox using parametric gear design methods with full CAD assembly and engineering drawings.

Leaf Picker Accessibility Device

Jan 2026 – April 2026

Team of 4

Columbus, OH

- Designed and built a leaf-picking device focused on accessibility and ease of use for older adults.
- Developed detailed technical documentation and collaborated on prototyping, testing, and design iteration.

Member

Aug 2025 – Present

Buckeye Space Launch Initiative

Columbus, OH

- Contributing to rocket component design, testing, and launch system refinement through hands-on engineering projects.

Aurdino Projects

April 2026 – Present

Self-Directed

Columbus, OH

- Designed and programmed Arduino-based microcontroller systems, including a PID temperature controller, fluid level control system, smart HVAC thermostat, and RFID access control system.

SKILLS & INTERESTS

Technical: Python, Java, MATLAB, CAD, SolidWorks, Onshape, FEA, SEM, Research Writing, Microsoft Office

Languages: Hindi, Gujarati

Interests: Space, Tennis, Chess, Running, Weightlifting
